Syria

Telecommunications and Electronics Engineer, graduated from Latakia University in Syria. Completed multiple training programs in CCNA, A+, ICDL, HR, and English language studies. These experiences have sharpened my communication and teamwork skills. But I transitioned into web development with a focus on front-end technologies, driven by a strong passion for this field. I dedicated to continuously improving my expertise in front-end development while seeking opportunities that align with my interests and career goals.

Education

Bachelor's Degree in Electronic Engineering at Latakia University, Syria, Latakia

October 2018 - July 2025

Grade: 71.90%

Skills
